ABSTRACT

A plant packaging and covering system comprising a floral sleeve having a base **portion** and skirt **portion**. The sleeve may have an upper protective sleeve portion for enclosing a plant disposed in a pot and which can be detached once the protective function of the sleeve has been completed. The sleeve has **an** expansion **[means] element** comprising a plurality of expandable folds for allowing portions of the base portion to expand to conform to the shape of a pot when a pot is disposed within the sleeve.
